You have not pinned any recalls.

#011 Zucchini Stir,Fry 0.75 pounds
Spartan Central Kitchen - September 9th, 2012

Class	Status	Recall
I	T	FI
Dangerous	Terminated	Voluntary

During an FDA inspection, microbiological swabs were collected and the results found that 21 sub samples in zones 1, 2 & 3 are positive for Listeria Monocytogenes (L.M.), Listeria innocua (L.I.) or Listeria seeligeri (L.S.). The firm is voluntarily recalling all products manufactured from August 20th to September 10th 2012 due to the possible contamination. All products with sell by dates on or before 11-OCT. No illnesses have been reported.

Regular Wild Cherry Pepsi two liter plastic bottles UPC 1231100
Pepsi Cola North America - December 19th, 2012

Class	Status	Recall
I	T	FI
Dangerous	Terminated	Voluntary

The labels on two-liter batches of Regular and Diet Wild Cherry Pepsi were mistakenly swapped during production. This is potential safety issue for individuals who are sensitive to phenylalanine (i.e., phenylketonuric) or who are diabetic.

Item Number: 193061 Item Description: BAG CLR ALMOND SLICED ...
Lipari Foods, Inc. - June 3rd, 2013

Class	Status	Recall
I	T	FI
Dangerous	Terminated	Voluntary

Contamination with Listeria monocytogenes, an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, Listeria infection can cause miscarriages and stillbirths among pregnant women.

- Ideal burndown
- Remaining burndown
- Hours completed

Completed approximately ~91% of planned tasks for sprint

A couple sprint targets will wrap up as part of the second iteration, including:

- Infi-scrolling for more cards
- Allow users to specify location
- Make URLs easy to get back to and resume where I was before
- Enable Facebook sharing
- Documentation (design, style guide)

Sprint Planning meeting (Iteration #2) planned for today, 6/23

Team will continue the next iteration through Wednesday evening, 6/24

- Conducted initial round of usability testing with user feedback group
- Usability objectives were to enable users to:
 - Identify product recalls impacting Maryland
 - Find product information for recalls, including description, ingredients, severity and manufacturer

Feedback summary for first iteration:

What did users like?	<ul style="list-style-type: none">• UI is very clean; colors are subtle• Easy to quickly understand data displayed, including class and status
What do they want to change/improve?	<ul style="list-style-type: none">• Organize cards by date, with most recent appearing first• Want to see summary/total count at the top to know how many recalls a state had• Want to display ingredients in a separate section on the card to make easier to read• Enable search capability; currently does not function as intended• Photos of products included in recall• Guide/tour on how to use application

- Infi-scrolling for more cards
- Allow users to specify location
- Make URLs easy to get back to and resume where I was before
- Enable Facebook sharing
- Allow users to specific location
- Keep track of what a user has viewed, star them, or never see them again
- Give the user a nice tour on the first visit so they're guided through how to use the site
- Find relevant images automatically for a food recall
- Recall detail page that includes the map of affected states and recall quantity
- Swipe left/right to dismiss a card series
- Create Application icon
- Finalize documentation/evidence on wiki
- Finalize RFQ pricing
